## **CAPTURED MOMENTS IN PRINT**

**- A Presentation by Derek Doar**

**(DPAGB)**

**Thursday, 26 March 2026 at 7:30 for 8pm**

Having reached the age of 75, Derek Doar has been involved in photography for over 59 years, printing both Black and White, Colour, and Black and White Infrared

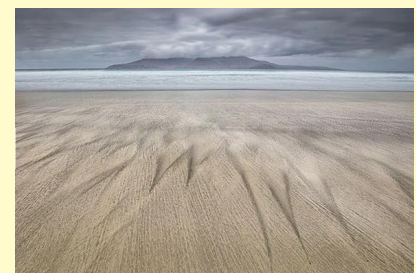

images. All those years ago he enjoyed the buzz of creating a new print in the darkroom and even today that buzz of holding a new print in his hands is still there. He believes the image capturing process is only finally complete when he holds the print in his hands.

Derek considers himself first and foremost a landscape photographer, but he also loves the natural world. He has embraced new techniques over the years such as HDR Photography, Digital InfraRed Photography and Panoramic Photography and uses his knowledge to improve the quality of his prints.

Derek's main landscape images come from his love of The Coast, The Hebrides and his local Derbyshire Peak District. He normally presents his talks as print talks so that the audience can see how passionate he is to produce prints.
